

-----\_Hii There!!!\_-----

1. If due to some reasons voting program gets closed during voting..  
then it will not restart again.

sol)Go to User Section and Hit Reset Button.

Caution:This will erase current voting progress DATA

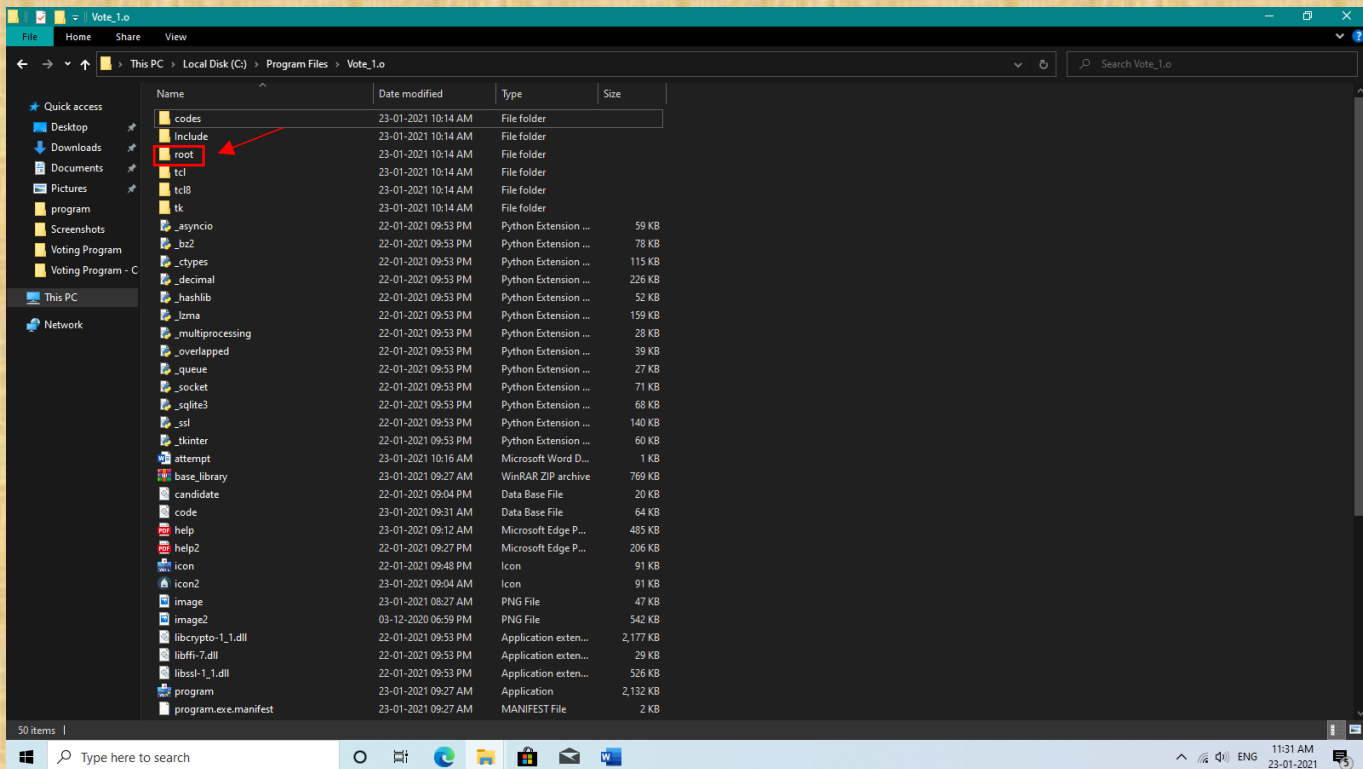

#You have to REVOTE!!!!

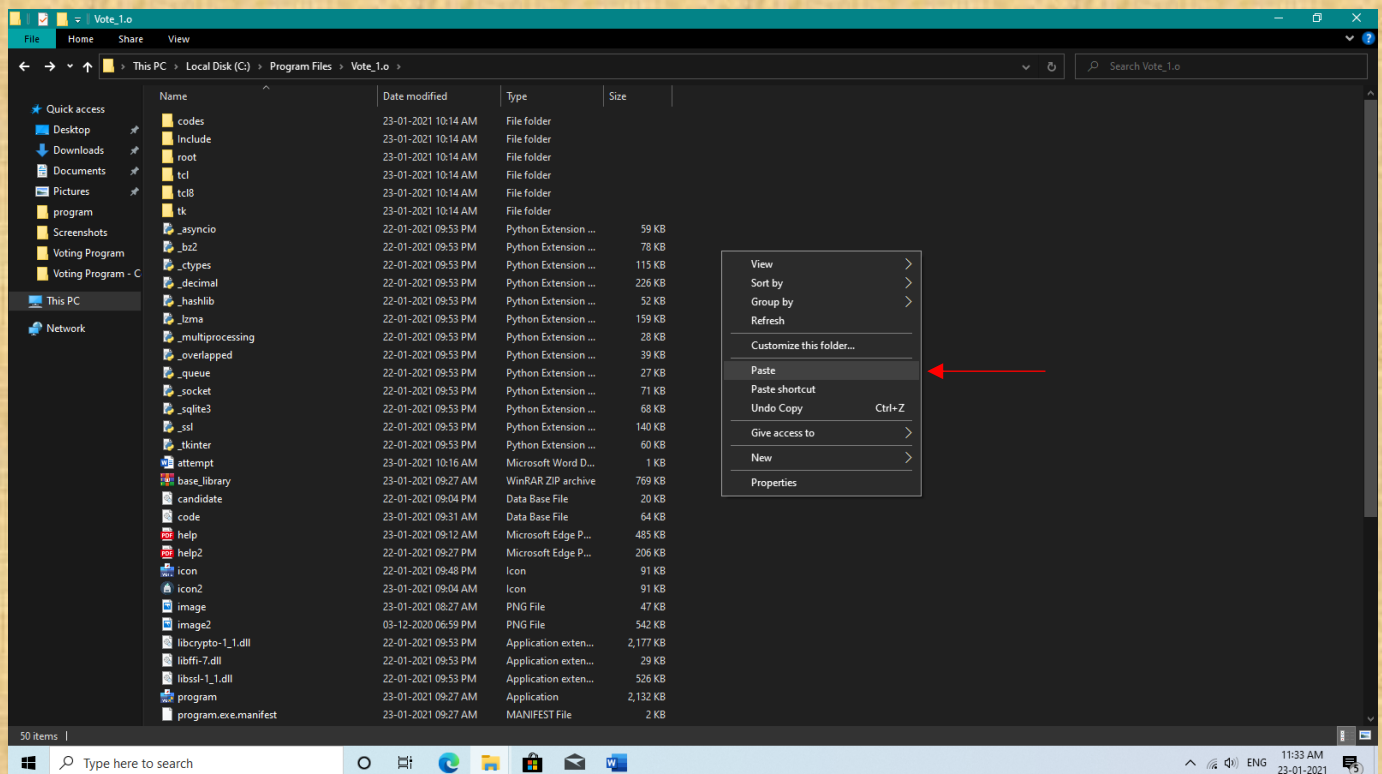

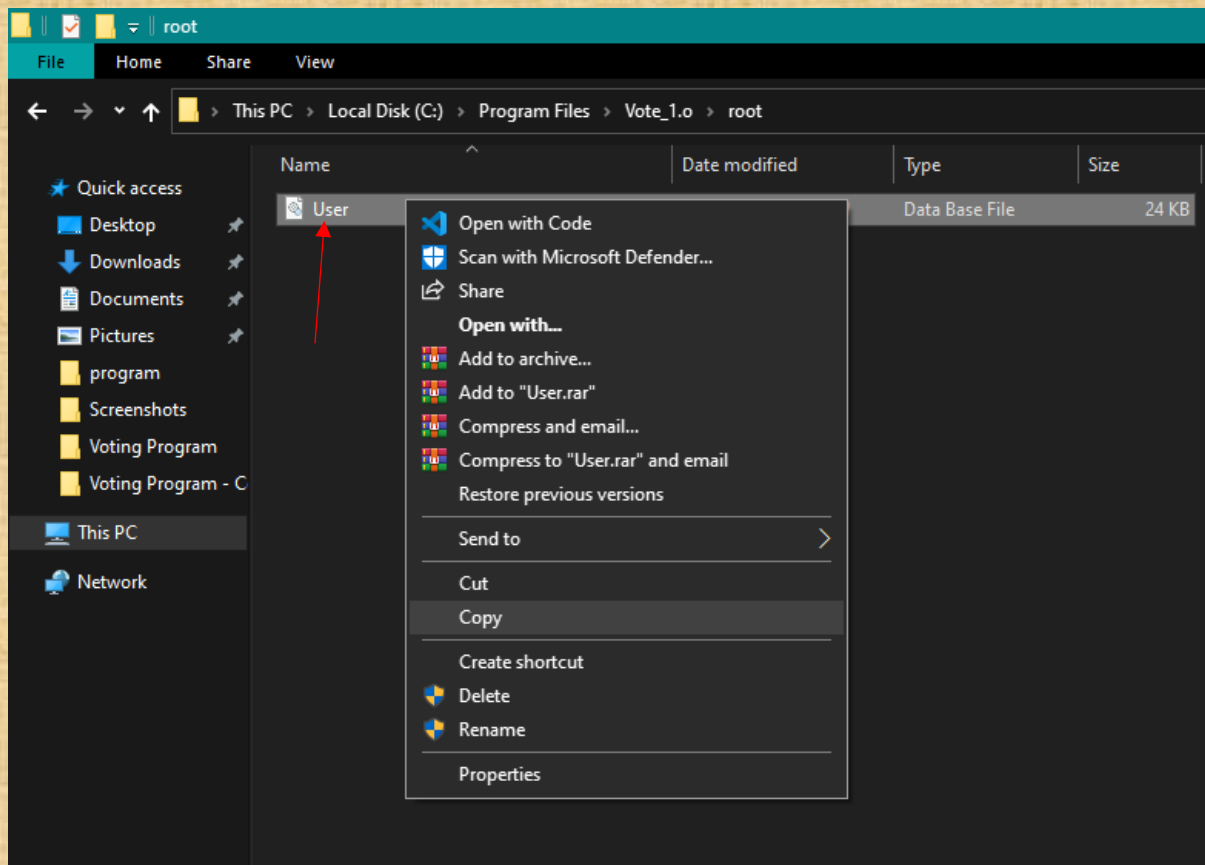

2.Is Admin User forgets His/Her password?

sol)Go to setup directory C:\Program Files\Vote\_1.o

there you will find root folder, there will be a user  
database, replace the user database in the main program by it.

HINT FOR REPLACED PASS: 1234

### 3.For Deleting Candidates?

sol)Just select the candidate name in the Right hand side table and HIT delete Button.

### 4.Change Password?

sol)Go to User Section and find your goal voila!!! You have changed your password But do remember it..

### 5.Program Not Responding?

Sol)If you have opened help file or codes folder to print or voting program. Then the main program will not work.. CLOSE opened windows and your program will work..
